WWW.CHRIS CRAFT STINGERS.COM Newsletter, January, 2012

Welcome to the January, 2012 newsletter!

Happy New Year and welcome to the January, 2012 edition of the chriscraftstingers.com newsletter.

One of the hardest parts about putting together the history of the Stingers has been finding people who worked for Chris-Craft during the late 1970s – late 1980s. There are many stories, and many holes in the history of the Stingers that can only be addressed by those people who had a hand in producing the boats. For two years now (since I started the website) I've been searching for people who worked with or for Chris-Craft. Early on, I was able to find Jean-Claude Simon, the person credited in the Chris-Craft brochures with the hull design of some of the Stingers. He was able to fill in some of the missing pieces (and provide some

interesting stories). Now, however, I'm excited to say that I've come across someone who has a wealth of information that will fill in some of the missing pieces. This person worked hand-in-hand with Dick Genth to create the Stinger line of boats. He also was president of

“where did the Stinger name come from”, as well as other questions that I think all Stinger enthusiasts wonder about.

With Ernest's help, I've updated the history page on the website. I'm proud to say that I believe that the page is now the most thorough history on the Stingers one can find.

There is still more to come however. I'm in touch with yet another person who worked on the Stingers, and I will be telling you more about him in the next newsletter as well as updating this history page with his insights.

Chris-Craft after Dick left. This person is Ernest J Schmidt.

I was able to track down Ernest on the Internet. I contacted him and he graciously agreed to answer my multitude of questions regarding the Stingers. He has been able to help me answer questions such as

So, meander on over to the history page and have a look.

As always, if you have any information on any Stinger, please contact me.

IT IS MECHANICALLY WELL MAINTAINED AND HAS HAD NUMEROUS UPGRADES THROUGHOUT THE YEARS. BOTH THE MAIN ENGINES WERE BROUGHT TO A TOP ENGINE BUILDING SHOP IN ATLANTA AND REBUILT AND DYNO TESTED TO 520 HP. THE ENGINES ARE SO CLEAN YOU COULD EAT OFF THEM. THE BOAT HAS AN ONAN GENERATOR, AIR CONDITIONING, HEAT, FRESH WATER TANKS, HALON FIRE SYSTEM, BUILT IN WINE COOLER, SEPERATE COMPARTMENT FOR SINK AND TOILET, UPGRADED STEREO, NEW SNAP IN CARPET, NEW BOAT COVER, NEW PAINT SCHEME. This is a 1988 Chris Craft stinger. It has the original OMC 4.6L V6. it has about 820hrs. It is in good condition, it had a tune up at the end of the season to tighten up some belts, etc. These pictures are old, but the boat is currently winterized, so I can't get any current ones. You would not believe the attention you get for this boat. In addition to being bright red, it is a Chris Craft, these boats are instant classics and extremely well built. The Stinger line is famous because the original pilot of Miami Vice featured the 39' version of this boat. I have to sell because I'm looking at business school, and I won't have time for the toys. I have a great arrangement for moorage in lake washington as well, in a marina, on a boat lift, for \$225/month. We can talk about transferring the lease. This price comes with the boat trailer and accessories, lines, fenders, extra aluminum prop, etc. If you would like to see comparable sale prices or find out more about the history of these boats, check out www.chriscraftstingers.com this boat is on the registry there at: Seattle 202 Gallery

Chris Craft manufactured the 39' Stinger for the Miami Vice TV show in the mid 1980's. 15 different size Stingers [20.3' to 41'] followed. This 202 was manufactured in 1987 and is the smallest off-shore racer type boats CC made. The Stinger has a fiberglass hull, is 20.33 feet long and 92 inches wide. The boat weighs approximately 1500 pounds with an empty fuel tank. Configuration- Stinger's are set up as off-shore racers with a single aft amidship cockpit for three. The wheel is in the center with so-called throttle and trim person on either side [the 202 is a single operator boat while larger versions may require a crew]. Originally, 202 Stingers were powered by a Mercuriser 195HP V-6 that claimed to go 50MPH. Click this and turn the volume up. 425-275-1839
